72v Maintenance Free Lithium

- 73.6V - High output
- 150Ah - **50+ miles** per charge
- More power to motor
- Higher top end speed - **30MPH**
- Maintenance free
- Higher efficiency
- **LIFETIME Warranty!!**

Navitas 7.5kw High Output Motor

Compared to a typical 5 kW:

- Much harder launch from a stop
- Pulls stronger from 15–30 mph
- Climbs hills noticeably easier
- Doesn't feel "out of breath" with 4–6 passengers
- Paired perfectly with the Navitas 600ah controller

Navitas Controller

- Adjustability & custom tuning
- Superior efficiency & lower waste heat (runs cooler)
- Speed switch (snail/rabbit mode)
- Adjustable acceleration
- Adjustable regenerative braking
- Strong low-speed torque for hills and heavy loads
- Phone APP for quick adjustments
- Fully programmable via Navitas phone app

MammothEV Power Comparison:

Feature	5kW	Included: 7.5kW Navitas
Rated Power:	5 kW	7.5 kW
Power Increase:	—	+50%
Hill Climbing:	Good	Excellent
Acceleration:	Moderate	Aggressive
Passenger Load:	Adequate	Strong
Heat Under Load:	Higher	Lower stress for same workload
